ENDLESS COLLECTION

The Source Mondial Endless Collection derives its name from the almost endless options of mixing colours and pile heights to readily achieve a quality customised hand-made rug.

Our Endless Collection rugs feature durable and very densely hand-woven or hand-tufted polyester yarn which has been specially developed to have a cotton feel, but also produce fabulous lustre. These super dense and luxurious rugs bring great texture, life and comfort to any living space.

Best of all, the process of selecting the perfect Endless Collection rug is as simple as 1-2-3. Just choose your colour, choose your style and choose your size. It's as easy as that – and of course the team at Source Mondial is always on hand to assist.
